## From Silos to Synergy: Enhancing Care Transitions to Improve Patient Outcomes in Home Enteral Nutrition

### LEARNING OBJECTIVES:

- Identify the responsibilities and impact of inpatient RDs in post-discharge nutrition planning for patients on enteral nutrition.
- Discuss effective interdisciplinary communication techniques that can enhance collaboration between physicians, dietitians, nurses, discharge planners and other healthcare professionals on behalf of the enterally fed patient.
- Use a case-study approach to determine strategies and tools to support seamless transition of enteral nutrition care from hospital to home.
