Empowering Conversations: The Science Behind Infant Formula

LEARNING OBJECTIVES:

- Review the importance of human milk and breastfeeding.
- Define current regulations for infant formula.
- Explain how human milk components have led to infant formula innovations.
- Apply evidence-based knowledge to confidently address common questions and misconceptions about infant formula in clinical practice.

MEETING INFORMATION:

Date: Wednesday, July 22, 2026

Time: 12:00 - 1:00 PM EDT

Visit anhi.org to learn more about our nutrition science education and resources
