## Through the Lens of Lived Experience: Reframing Shared Decision-Making in Obesity Care

### LEARNING OBJECTIVES:

- Discuss the 2026 standards of care, the obesity bill of rights and how person-centered care can guide collaborative compassionate care.
- Identify core elements of shared decision-making to improve engagement, autonomy, and long-term management of lifestyle and pharmacologic therapy.
- Explore the care journey from the patient perspective-exploring goals, values, and preferences to support sustainable lifestyle change.
